**Math equations** should be submitted as **editable text** and not as images. Present simple formula in line with normal text where possible and use “/” instead of a horizontal line for small fractional terms.

**Acknowledgements** should be included at the end of the article before the references (not include them as a footnote to the title or otherwise).

The complete references list is placed at the end of the paper, listed in alphabetical order. It should be **single spaced, TNR, size 10, hanging: 1 cm**;

Please consider the examples in the next section.

## How to cite

### General rules:

- All references included in the reference list should be cited in the text, and vice versa.
- It is recommended to indicate the page for a citation.
- In case of sources in a language other than English shall be use the original title in Latin alphabet
- Arrange all sources alphabetically, not by format of publication (book, journal, etc.)
- web sources with very large links, it is recommended to shorten them (use <http://www.webcitation.org/archive.php>)

### Citation in text

Source with one author:	Smith (2013, p. 52) indicate that... <i>or</i> (Smith, 2013, p. 52)

*Preferable as footnote*

In case of a large number of references to newspaper articles, it is required to place  
them in the footnotes rather than in the reference list at the end of the manuscript.

If you use a set of data source for a table or figure, it is not necessary to include this  
source in the reference list.
